

 **FEDGROUP**
IMPACT FARMING

Make money doing something big

Purchase an Impact Farming asset on our platform and we'll house them in a commercial farm, attended by professionals in their field. You earn a regular income based on the production of your Impact Farming asset.

BLUEBERRY

Own blueberry bushes on a smart blueberry farm.

Earn an income twice a year from the harvest of your blueberries.

12% Return	R 300 Price	8yrs Term
----------------------	-----------------------	---------------------

HONEY

Own beehives on a commercial farm.

Earn an income twice a year from the harvest from your beehive.

14% Return	R 4 000 Price	10yrs Term
----------------------	-------------------------	----------------------

SOLAR

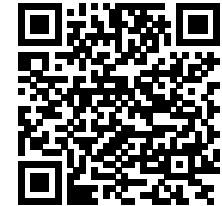

Own solar panels on an urban solar farm.

Earn an income every month based on the energy your panel produces on the roof of a commercial building.

10% Return	R 5 000 Price	20yrs Term
----------------------	-------------------------	----------------------

* The projected returns for our Impact Farming assets are your internal rate of return. This is the income produced by your assets over their lifetime, minus your initial purchase price. The returns you see here are therefore the amount of money you can expect to make after your assets have paid for themselves.
